Admin can perform certain actions as below

✓ When user clicks on “In Review” button –

We need to ask confirmation box as:

“Via marking the note In Review – System will let user know that review process has been initiated. Please press yes to continue.” With yes, no buttons.

When user press Yes – It will update note status from ‘Submit for Review’ to ‘In Review’.

When user press No – It will close confirmation box.

✓ When user clicks on “Approve” button –

We need to ask confirmation box as:

“If you approve the notes – System will publish the notes over portal. Please press yes to continue.” With yes, no buttons.

When user press Yes – It will update note status from ‘Submit for Review’/ ‘In Review’ to ‘Published’.

When user press No – It will close confirmation box.
